DETAILED ACTION

Response to Argument

Applicant's arguments with respect to claims 7-10 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Sato et al. (US 5,589,947).

Regarding Claim 7: Sato et al. discloses a control apparatus comprising: a detection means for detecting a first information processing apparatus (paragraph 0007); a request means for requesting, from the first information processing apparatus, address information of a second information processing apparatus connected to the first information processing apparatus via a network (paragraph 0039); a receiving means for receiving the address information; a control means for controlling the first information processing apparatus and the second information processing apparatus (paragraph 0041); an acquisition means for acquiring first operation screen information for displaying a first operation screen corresponding to the first information processing apparatus and second operation screen information for displaying a second operation screen corresponding to the second information processing apparatus (paragraph

0043); and a display means for displaying first operation screen and second operation screen, wherein the control means, control the second information processing apparatus via the first information processing apparatus based on the address information (**paragraph 0043**).

Regarding Claims 8-10: Claims 8-10 are rejected for the same subject matter as claim 7.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
